Holly Hall House Care Home Details

The management and staff at Holly Hall House Care Home are committed to providing a standard of care that embraces all the principles of excellent care home practices. The resident's physical and spiritual wellbeing is at the heart of our plan of care which ultimately enables each resident to reach their desired goals and level of fulfilment in life. We actively promote a happy working and living environment which is both professional, courteous and fun. We believe in respecting individual preferences whilst encouraging and supporting our residents independence.

It is important to us to respect the variations in individual needs, interests, views, lifestyle, hobbies and personalities, and the staff will make this an inclusive part of an individual's plan of care.

Residents are supported to attend appointments but are also encouraged to maintain their own independence by attending their own appointments at Hospital or GP Surgeries if this is their wish. Referrals to access professionals for advice and support or for reviews of medication or mental health are made as required.

Holly Hall House Care Home Activities & Information

Our activities are planned by staff taking suggestions from the residents who live at Holly Hall House via feedback from regular residents meetings, surveys completed by residents and their families and monthly meetings with their own individual key worker. These include arts and crafts, music, exercise, baking, beauty, games and quizzes, shopping, local walks, news and world affairs, outings and entertainment. We also plan regular short break holidays usually at least two per year, again the destination is decided by our residents, with their needs and specific requirements in mind.

Promoting independence, fun and fulfilment is at the heart of this vibrant home. There is something for everyone and everyone is special at Holly Hall House Care Home.
