Introducing Royal Park

Royal Park is located in Bilston, a suburb of Wolverhampton and near the border of Staffordshire. The area allows for good transport links either by road or rail making visiting easier for family and friends but also ensuring community therapy programmes are participated in on a regular basis.

The service offers both short and long-term placements for residents, this can mean intensive assessment periods for some residents but for others this may mean an environment which fully understands the longer term needs of people with Neurological conditions, a Brain or Spinal injury as well as artificial ventilation and tracheostomies.

On admission a resident would participate in a full assessment of need offering a baseline from each of the therapy disciplines, each person is then supported by the Therapy team to set realistic and achievable goals which all work towards the persons longer term objective.

The catering team provide daily menus, catering for personal tastes, religious and specific dietary requirements. All meals are healthy, well balanced and enjoyable.

At Royal Park we offer a balance between a clinical but homely environment, we aim for everyone to feel welcome and equally involved in the running of the service, this also includes the family, friends of residents as well as external professionals.
